Medi-Mart Eshop

Description

This project is a simple e-commerce web application that includes a product page and a shopping cart. It allows users to view available products, add them to the cart, and proceed to checkout.

Features

- Product page displaying available products
- Cart functionality for adding and removing items
- Checkout process for finalizing purchases

Installation

Clone the repository using the following command:bash

https://github.com/irfanhsajid/CSE327-Group1-Project/tree/Musfik-Parvej

- Navigate to the project directory.
- Install the necessary dependencies using the package manager of your choice:
- Npm install

- Run the development server:sql

- Open your web browser and navigate to http://localhost:3000 to view the application.

Usage

- Browse the product page to view available items.
- Click on the "Add to Cart" button to add products to your cart.
- Navigate to the cart page to review your selected items.
- Proceed to the checkout page to complete your purchase.

Technologies Used

- HTML
- CSS

- PHP
- Mysql

Contributing

Pull requests are welcome. For major changes, please open an issue first to discuss what you would like to change.

Please make sure to update tests as appropriate.

Visual Studio Code Installation Guide

Downloading VS Code

- Visit the [Visual Studio Code website](#).
- Click on the "Download" button for your operating system (Windows, macOS, or Linux).
- Follow the installation instructions provided for your specific operating system.

Installing VS Code Extensions

- Launch VS Code.
- Open the Extensions view by clicking on the Extensions icon in the Activity Bar on the side of the window.
- Search for the desired extension in the Extensions view search bar.
- Click on the extension and then click the "Install" button.

Configuring VS Code Settings

- Access the Settings tab by clicking on the gear icon in the lower-left corner of the window or by pressing Ctrl + , (Cmd + , on macOS).

- Configure your preferred settings, such as theme, font size, and key bindings.
- Save the changes.
